Subject: Re: pathogen TMDL document

Hi Robin,

Felix and I have looked through the document and marked it up with our comments. Overall the document looks good. One concern is the Margin of Safety. As you will see from the comments, we are concerned that the some of the implicit MOS factors are not really safety factors. Perhaps it's a matter of providing more information.

If you would like to discuss the comments, feel free to give us a call. I will be out tomorrow, but Felix will be in (vice-versa for Friday).

Thanks,

Rosella

Felix and Rosella:

As we discussed, attached please find a draft of the pathogen TMDL document. Please let me know as soon as possible prior to March 15 if there is any EPA feedback or comments.
